TRACY JORDAN

30 Rock cutup

You could be forgiven for mixing up Tracy Morgan, the actor, with Tracy Jordan, the TV comedian he so naturally inhabits on *30 Rock*.

"I thought the character was perfectly suited for me," Morgan says, "because [series creator and fellow *Saturday Night Live* alum Tina Fey] just wanted me to do me."

That said, the star would like to make it clear that there is a difference between the two Tracys.

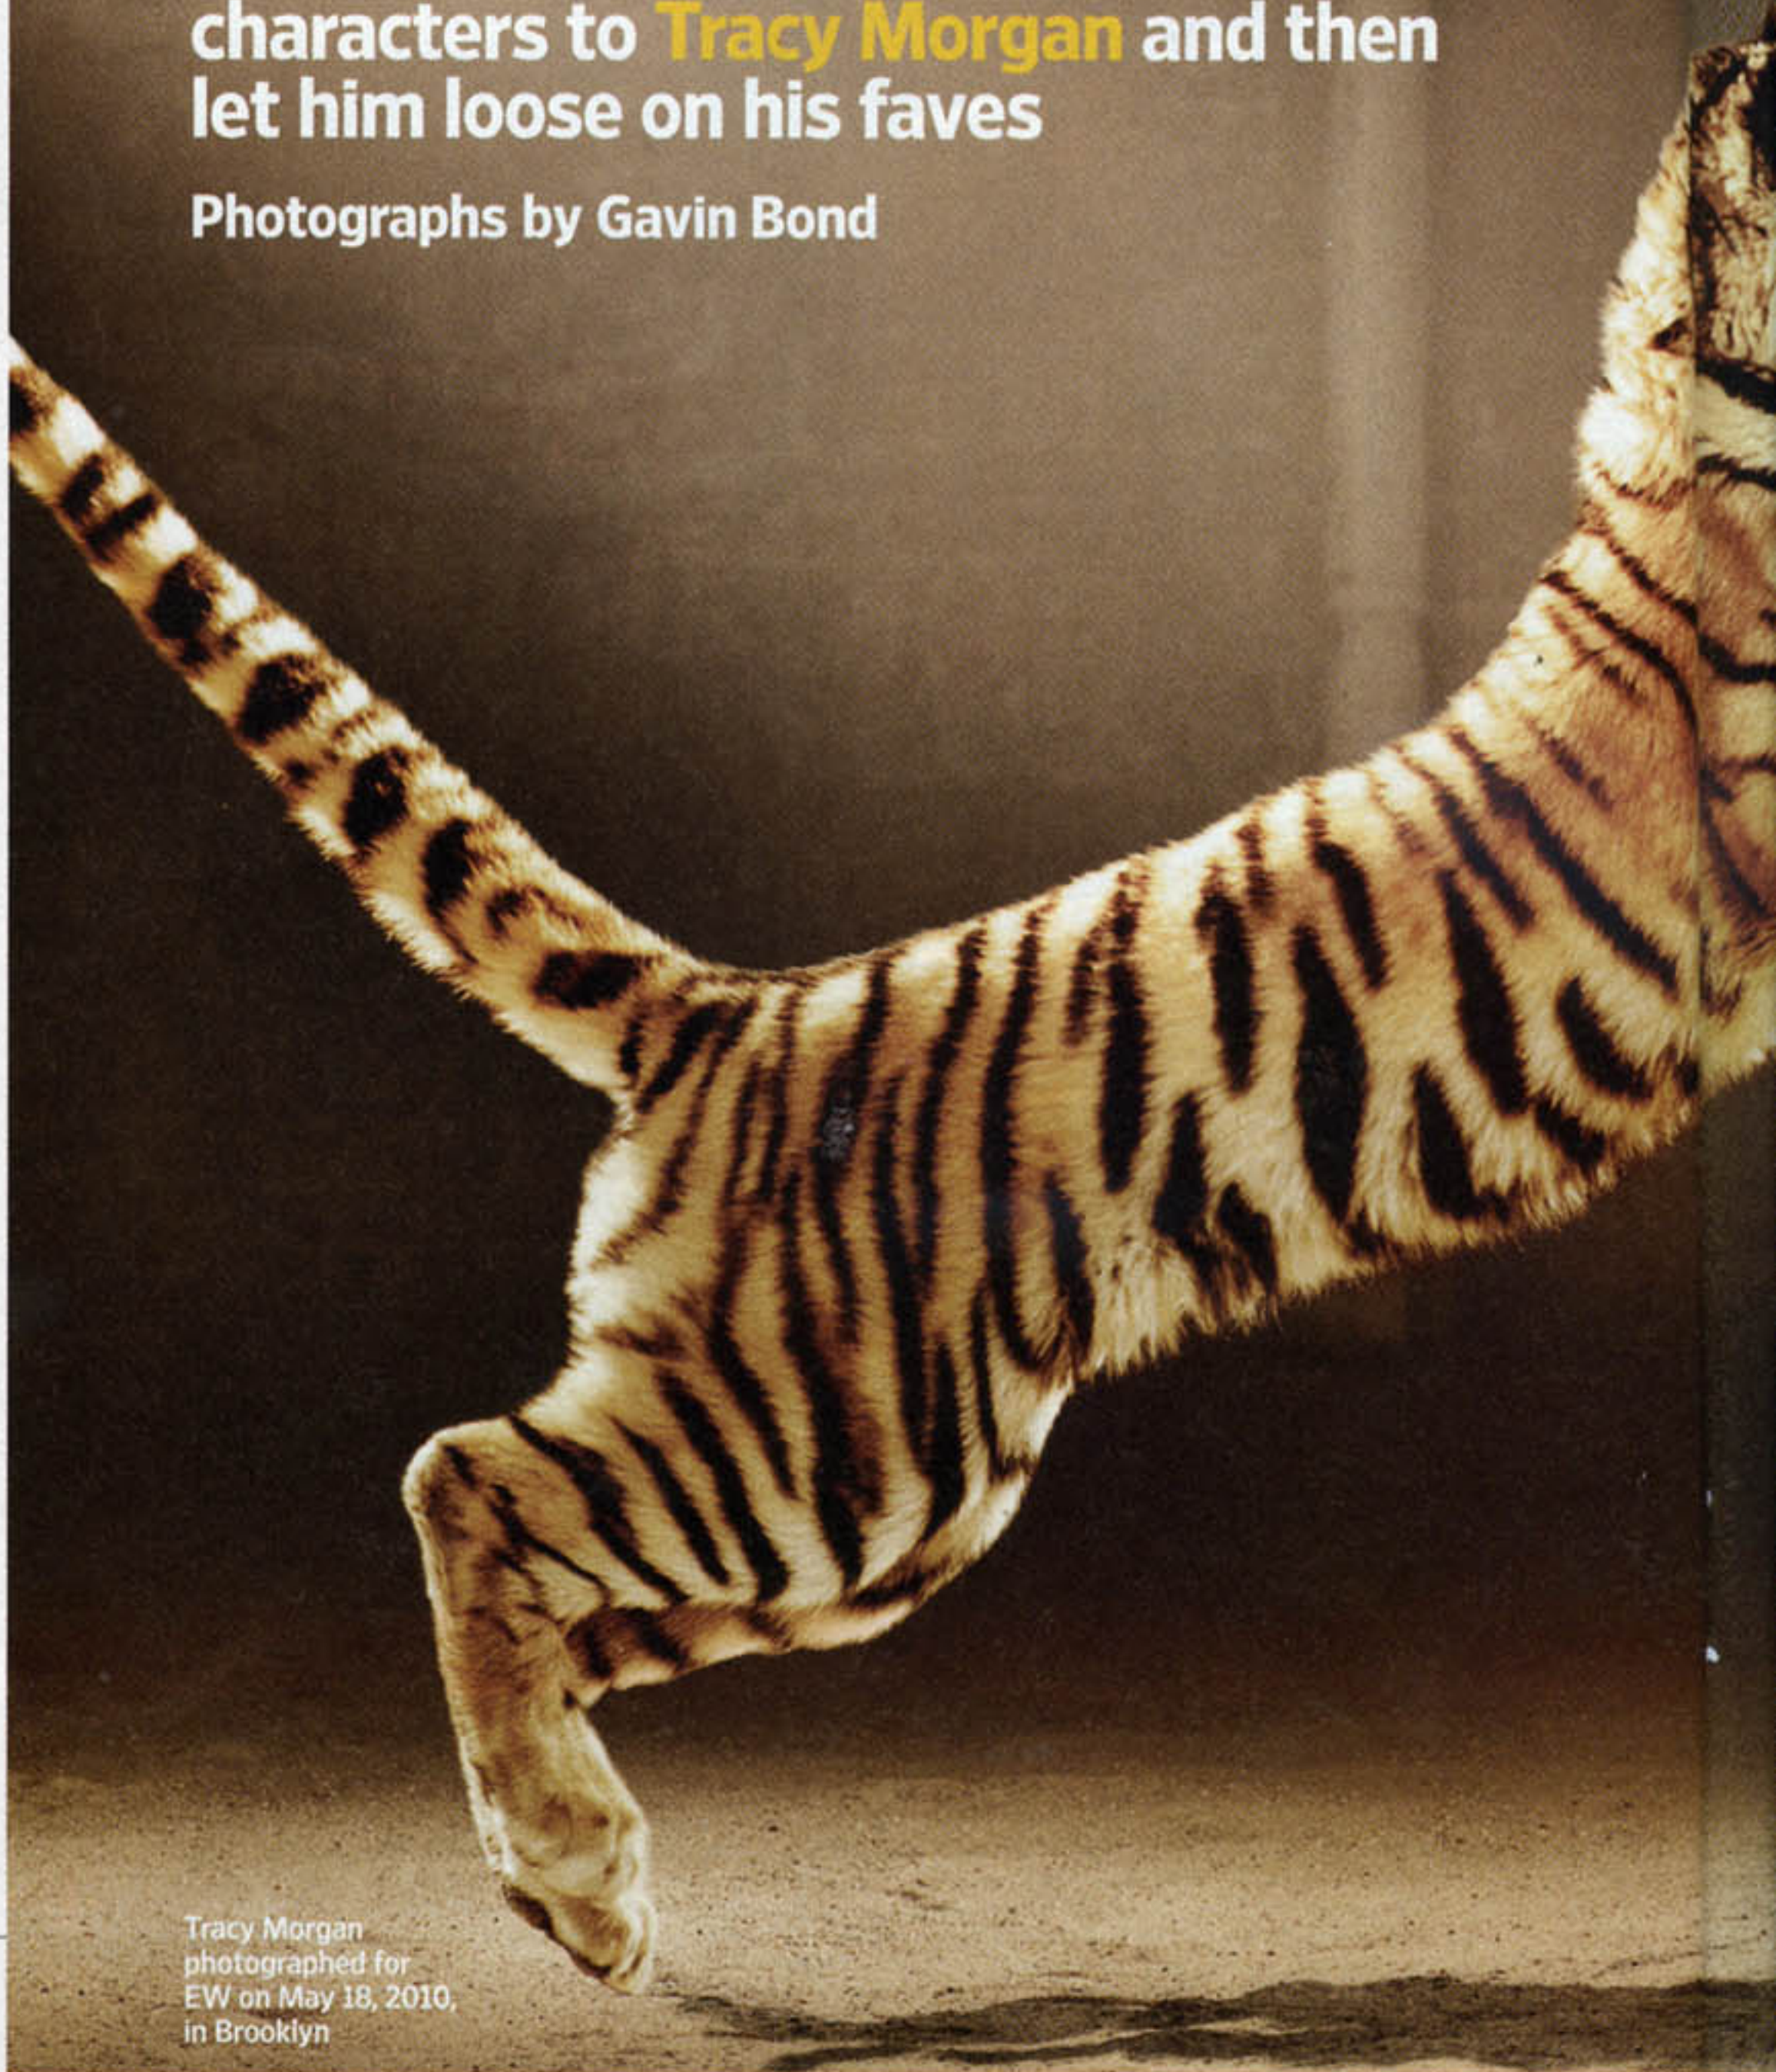

"Tracy Morgan doesn't run down the street in his underwear holding a lightsaber," he says of the flashback to Jordan's breakdown in the pilot episode. "And Tracy Jordan has \$300 million that I don't."

"I've watched this movie over and over because it's great. Who never saw *Forrest Gump*? He's a pop culture icon."
